Julie D. Burch

Julie has been working with electric cooperatives across the country, for years, with great results! Electric cooperatives are different than a traditional corporation and require training and development programs that not only understand that, but also respect it. Being member owned means member focused and that means everything we do goes back to our core values and 7 Cooperative Principles. Julie's training workshops always keep the "cooperative way" at the center of every program. Whether teaching to the entire cooperative or a specific department - from member services to engineering to the lineman - Julie connects with the team and makes the training relevant. In addition, all her presentations are dynamic, high energy, highly interactive and full of real world, tangible techniques the participants can use immediately. They are also tons of FUN! Julie loves to make people laugh. She has discovered they more they laugh the more they learn.

Solid Business Strategies. Brilliant Comedic Humor.
It's not just her tag line, it is her promise for every presentation!
